A Millionaire's Hard Fate.

How sadly deficient some people are of any sense of humor when the subject is themselves! Take the Duke of Devonshire, who delivered a speech at the opening of a "Passmore Edwards Home" for epileptics. So long as he kept to the epileptics the duke managed well enough, but before he sat down he must needs get on the subject of himself and the sorrows of the poor millionaires.

"It might perhaps be considered presumptuous for one who was reputed to be a millionaire to offer advice to other rich men which he had not taken himself or was not himself prepared to follow, but perhaps he might be allowed to point out that there was some difference between those who happened to be in the possession of wealth inherited from several generations and those who had created their own fortunes. Their predecessors, in cases like his own, had generally contrived to find quite as many channels by which wealth flowed out as by which it flowed in, and those who had for the benefit and advantage of their successors created great estates, entailing much labor in administration and many responsibilities, had not left to their successors a legacy of unmitigated advantage.

The spectacle of the duke inviting the contemplation of his audience for the cruel fate which compelled him to keep up Chadsworth and Devonshire Homes instead of founding homes for epileptics is indeed exasperating."—Westminster Gazette

Right For Once. Two Scotsmen, one an Aberdonian and the other a man from Inverary, were engaged in a hot debate on the correctness of their respective modes of English pronunciation. At last he of the Granite City clucked matters by remarking with withering contempt, "Weel, at any rate, I dinna ca' 'fush' 'fush'."

History. Mr. Figg—What did you learn at school today?

Tommy—Teacher told us how the cruel Emperor Nero used to amuse himself when he was a boy by pulling the legs off the flies.

Mr. Figg—Called their legs, did he?

Mr. Figg—No, I'm not. Did he become a doctor?—Louisville Journal

Sizes of Heads. Shackenay had an enormous head and a notably heavy jaw, but some one discovered an ulcer on the side of the head and had a heavy beam of wood or notations persons Mr. Gladstone and Lord Salisbury (the large head) and Sir William Harcourt and Mr. Balfour (the small ones).—Notes

WEAK MEN

CURED AS IF BY MAGIC.

Victims of Lost Manhood should send at once for a book that explains how full manly vigor is easily, quickly and permanently restored. No man suffering from weakness can afford to ignore this timely advice. Book tells how full strength, development and tone are imparted to every portion of the body. Sent with positive proofs (sealed) free to any man on application. ERIE MEDICAL CO., BUFFALO, N.Y.

MEN AND WOMEN to make big money with the Practical Plating Dynamo.

The electrical machine used in the great plating factories. \$50 to \$85 a week made easy. Plates everything, no experience; big profits. Address W. P. Harrison & Co., Clerk No. 11, Columbus, Ohio.

Proebel, the great promoter of the kindergarten system of teaching children said: "Let parents not live for their children, but with them." The mother who understands this sentiment lives with, even her unborn child. She studies to be wise about herself and the little life she is fostering. She does all she can to give her child a fair start in life, by giving it a strong well developed body. All through babyhood, childhood and youth she lives with her son or her daughter. Especially her daughter she will keep near her. She will allow no false modesty to stand in the way of that daughter's knowledge of herself, of her possibilities, of her perils. She will teach her that happy, healthful motherhood is an honor, a blessing. That sickness is a mistake, a breaking of nature's law. But there are times of unavoidable overdoing when the system becomes run down.

For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It reaches out the weak spots, and builds them up. It is beneficial in any state of the system. A woman who would understand herself will find an able assistant by sending 21 cents to the World's Dispensary Medical Association, Buffalo, N. Y., for Dr. Pierce's Common Sense Medical Adviser. It is a book that has reached its 650th thousand. It contains in its 200 pages an immense store of information in plain words that any person will readily understand.

Mr. O. G. Spear, of Sand Bank, Oregon Co., New York, testifies in this way: "Our first child was born before my wife was sixteen years old. Afterward her health was very poor. She tried Dr. Pierce's Favorite Prescription. She gained flesh and strength by using two bottles. During the last few weeks of her second pregnancy she again used the 'Prescription.' Her confinement was a rapid and easy one, and she got up strong and well."

MANHOOD RESTORED "CUPIDENE"

This great Vegetable Tonic is a famous French preparation, will quickly cure you of all nervous or diseased of the generative organs, such as Loss of Manhood, Premature, Pains in the Back, Seminal Emissions, Spermia, Impotency, Pimples, Unfitness to Marry, Exhausting, Night, Venereal and Gonorrhea. It cures all these by day or night. Prevents quickness of discharges, which break through the system and cause all the horrors of Impotency. CUPIDENE cleanses the liver, the kidneys and the urinary organs of all impurities.

CUPIDENE strengthens and restores small weak organs. The reason sufferers are not cured by doctors is because ninety per cent are troubled with Premature Discharge. CUPIDENE is the only known remedy to cure without an operation. \$2.00 a bottle. A. Willing guarantee given and money returned if it does not cure a permanent cure. Write for full particulars. Address: RAYOR, MEDICINE CO., P. O. Box 207, San Francisco, Cal. Write for full particulars.

FINANCIAL REFORM PLATFORM.

The Silver men of the United States, recognizing the fact that the adoption of the single gold standard is the cause of the general financial and industrial depression, propose to make the restoration of silver to its former position by opening the mints for its coinage on an equality with gold, the leading issue of the Presidential campaign of 1896. This one principle of silver re-monetization means the return of prosperity, better prices and increased demand for labor and its products, the decrease of poverty, the development of our resources, the appreciation in the value of real estate throughout the country and the doubling of the population of Nevada within a year.

Though this one principle, the restoration of silver, means more than is embodied in the usual twenty-plank platforms of the old parties, it should not be assumed that the Free Coinage party, if in the ascendancy, would not deal with other matters of public interest. It would settle the Pacific Railroad's affairs with the Government by dealing justly with both. It would make the necessary appropriations for public institutions and doubtless adjust tariff schedules more equitably than either of the old parties, as it is not committed to an extreme high or low tariff.

It is nothing new for a National party to have but one main issue. The Republican party went into power on the sole issue of preventing the further extension of slavery. Then the war for the Union became the issue and at the close of the war reconstruction was the only issue involved. Subsequently the spoils of office became the paramount question, and in 1892 tariff was made the issue and, as was proved by the Wilson bill, passed by a Democratic Congress, the only difference between the so-called Free Trade Democrats and the Protection Republicans was a fraction over 11 per cent in tariff schedules. Now, as is shown by the Dingley bill, passed by a House with an overwhelming Republican majority, the difference between the parties on tariff schedules is much less than it was two years ago. On the financial question both the old party organizations virtually agree. Cleveland and Carlisle, the recognized heads of the Democratic party, and Sherman, Morrill, Reed & Co. the acknowledged leaders of the Republican party, believe in issuing interest-bearing bonds in time of peace, with nearly \$200,000,000 available cash in the Treasury, to purchase gold to maintain the single standard. No; none of the parties have more than one paramount issue in their platforms, and no party has ever settled more than one leading issue during the term of a President, and frequently, as is shown by the tariff discussion, it does not do even that. The Silver party will dispose of the great question of the day and it may be relied upon to deal with other issues as fairly as either of the old parties.

THE X RAY CAUSES A LIBEL SUIT.

The Roentgen ray is the cause of a libel suit in Pennsylvania. State Senator Flynn and C. L. Magee have entered suit against the Pittsburgh Commercial Gazette for criminal libel. The plaintiffs allege that the paper published a cut in which the X rays turned on their brains showed a bag of money labeled "McKinley campaign funds." This the plaintiffs claim damaged their reputation to the extent of \$100,000 and they ask damages for that amount. If the plaintiffs in the Pittsburgh case get a verdict there will probably be many suits of a similar character. No less a personage than Senator Cullom of Illinois charges that the McKinley managers have been using money to influence conventions and that they have secured several delegates by corrupt methods. It is not probable that such a respectable person as the senior Senator from Illinois, a gentleman who figures as a Presidential possibility, would make such a serious charge as that unless he can substantiate the accusation. Reed's friends also charge that the McKinley men bought up whole delegations in the South. If these charges are unfounded Senator Cullom and Speaker Reed may be defendants in libel suits brought by the McKinleyites, unless the "good of the party" prevents the rival candidates from airing each other's dirty linen in the courts.

ST. JOHN WITH THE POPULISTS.

John P. St. John, ex-Governor of Kansas, the great apostle of prohibition, has declared unequivocally for free coinage and is now a candidate for Congress in the Second Judicial District of Kansas. He expects to receive the endorsement of the Prohibitionists and says if the Pittsburgh National Convention does not declare for free coinage at least 100,000 Prohibitionists will join the Populists. Governor St. John was at one time Prohibition candidate for President. He has a large following in Kansas and thousands will go with him into the Populist ranks. Heretofore the Prohibitionists have run a separate ticket in Kansas, but St. John's course will probably result in the disorganization of the party in that State.

Elections were held in nearly all the cities and towns in Minnesota this week. The honors were about equally divided between the three parties.

ALL GRAPHIC NOTES

The residence of Representative Grove Johnson of California at Washington was robbed by sneak thieves and jewelry and securities valued at \$2,900 stolen.

The Senate Committee on Public Lands reported favorably on a bill to provide for the examination and classification of mineral lands within the limits of railroad land grants.

The winery and distillery of Henry Bolle in Sonoma county, California, has been seized by the Revenue officers. They found 600 gallons of illicit brandy concealed in wine casks. The property seized is valued at \$25,000.

The council which is investigating the Dr. Brown scandal case in San Francisco was enlightened by the testimony of the young lady, a member of the church, who said that Dr. Brown had attempted to blackmail her.

In Fresno, California, a suit of any magnitude involves an expenditure of \$100 for clerk's fees. In other counties the maximum amount is \$8.50 for the service. Suit has been brought to test the legality of the clerk's charges.

The missing steamship Rio de Janeiro ran short of coal 1,200 miles off the Japanese Coast, and the weather being stormy she put back to Honolulu. The steamship Alameda brings the news from Honolulu that all were well on board the Rio.

Rev. J. A. Smith has been arrested at Stockton, Cal., on a charge of obtaining money by false pretenses. He claimed to be worth \$40,000 and proposed to a wealthy widow, of whom he obtained five months' board at Sutter Creek. He is said to have served a term in Folsom Prison.

Dr. A. V. Burghill, who offered to sell himself for any purpose for \$5,000, was terribly injured by an explosion in Chicago, caused by a hazardous experiment with a flash light used in photography. He lost both eyes and his hands had to be amputated. He wanted the \$5,000 to provide for an aged mother.

The delegates from the District of Columbia to the Democratic National Convention are said to be nearly all free coinage men. A resolution to instruct them for free silver was tabled in committee and a resolution denouncing the policy of President Cleveland was defeated in convention by a vote of 29 to 27.

The engine and miners' cars, containing a hundred men, were sidetracked to make a running switch, when another section of the train, consisting of a caboose and passenger coach, rushed down a heavy grade and collided with the first section. The miners were thrown into one end of the car and the heavy seats piled on to them, severely injuring nearly every one of them, as well as the conductor and baggage man.

An order of the Governor of Kentucky to the Sheriff to clear the Senate cloak room, in which Senator Blackburn and his friends were seated, was roundly denounced in the Legislature, and a resolution of censure was drawn up but its passage was not pressed. Bronston bitterly scored Bradley, whom he said was Governor by accident, and Gobel and others said the Governor had no right to interfere with the action of the Senate. The ballot for Senator resulted in 50 for Blackburn, 13 for Carlisle and 1 for Backner, the Republicans refusing to vote. Governor Bradley denied having given the Sheriff orders to clear the cloak room and Bronston begged his pardon.

LOCAL AND GENERAL NEWS.

Items From Here, There and Everywhere.

Butcherers are at war and beef sells for 5 cents per pound, and this, too, with five feet of snow on the ground.

The Grand Jury of Esmeralda county has found a true bill for murder against James P. Boone for killing Antonio Bacock last November.

Twelve hundred bushels of potatoes were shipped from Silverton, Lake county, Oregon, last week. They sold there for 15 cents a bushel.

The Los Angeles Grand Jury found an indictment against Rev. Hyram W. Cummings for bigamy, he having one wife at Chicago and another in Los Angeles.

The Hawthorne Bulletin says Col. J. W. Sutherland, managing director of the Holmes mines, is at Candelaria putting the property in shape for the early resumption of work in the mines and mills.

Charles Chambers, stage robber and ex-convict, was arrested near Woodland, California, on a dispatch from Governor McConnell of Idaho, where he is wanted for crimes committed years ago.

Salt Lake City has donated land valued at \$250,000 in the heart of the city to the Utah and Pacific Improvement Company for terminal uses, the company agreeing to build a road from Los Angeles to Salt Lake.

The *Plunderer* is a new paper just started at Alturas, California, under the proprietorship of Oliver & Thompson. The latter is an old newspaper man and the paper will advocate free silver and prosperity before party.

A Collision.

Passenger trains Nos. 3 and 4 collided at Golconda yesterday, which caused the delay of the west-bound last evening. Golconda is the meeting point of the trains and the collision was caused by the air brakes failing to work on No. 4. No one was injured, but the engine was smashed up considerably.

PAINES' CELERY COMPOUND.

Mrs. J. A. Sample Owes Her Strength to This the Best of All Remedies.

For the unfortunates who lie awake, staring at the ceiling and counting the strokes of the clock, every sleepless night is an eternity.

Mrs. J. A. Sample of 1558 Broadway, New York city, was afflicted with insomnia until her nerves were on the verge of prostration. She thinks her condition was due to indigestion. Here is what Mrs. Sample says:

"I have used Paine's Celery Compound with marked and decided benefit. It is especially useful in insomnia, arising from indigestion and poorly nourished nerves."

"I should add that my granddaughter, Vera Hadleigh, was so thin and puny at the age of ten as to cause much anxiety. We had no difficulty in inducing her to take Paine's Celery Compound. Today the roses bloom in her cheeks, and I never saw a healthier, stronger child than Paine's Celery Compound has made her."

The brain is the centre of the nervous system. Sleep alone rests this vital organ, together with the nerves. During the waking hours the nervous

system works incessantly. Poor sleep means a poor nervous condition, and prolonged insomnia leads in every case to prostration, and too often to dread insanity. The mischief that results from weakened nerves is much greater and more destructive than most folks ever dream of.

The all-important thing for nervous, run-down persons, and for those who are losing sleep, is that Paine's Celery Compound builds up the whole physical system, and by improving the digestion and regulating the nerves it insures sound, refreshing sleep.

In winter most women and many men lead hothouse lives. A flagging appetite, a disposition to pick at this dish and that, rather than to eat a square meal, is among the early indications of failing health. Then comes delay in falling asleep and the fretful, uneasy feeling the next day.

Deliverance from such a miserable condition by the use of Paine's Celery Compound has caused men and women from every section of the United States to write sincere, hearty words of praise

and thankfulness for this grand invigorator. People enjoying perfect health sometimes wonder at this gratitude; but whoever has suffered from prostration of nerves, of which insomnia is one of the symptoms, will understand how hard it is to overstate the torment of this condition. And whoever has been made completely well by Paine's Celery Compound feels that no words can overstate the joy and gratitude such persons feel.

This is the state of mind of thousands of nervous, sickly broken-down persons who have used Paine's Celery Compound and been made well.

Mrs. Sample tells of the happy result in the case of her grandchild. One of the most conspicuous instances of the remarkable power of Paine's Celery Compound over debility is shown in the relief it has afforded children. Of course the dose is adapted to the age of the little patient. The compound purifies the blood and corrects any tendency to constipation. Pale, puny children are made vigorous, rosy and healthy by this incomparable remedy.

Marvelous Results.

From a letter written by Rev. J. Gundersen, of Diamonddale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts. and \$1.

"The Old Lime Kiln"

Katie Putnam is adding to her already excellent reputation this season by furnishing a company and a performance far in advance of any effort of hers in previous seasons. "The Old Lime Kiln," her new play, recently made a big hit in Chicago, and is one of the big winners of the season. It comes to McKissick's Opera House next Saturday night.

DIED.

BOLEN—At Steamboat, Nevada, March 11, 1896, the infant son of Mr. and Mrs. Samuel Bolen, aged 3 months and 13 days.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper effort—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constituted condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Valued Indication
of Scott's Emulsion is contained in letters from the medical profession speaking of its gratifying results in their practice.

Scott's Emulsion
of cod-liver oil with Hypophosphites can be administered when plain oil is out of the question. It is almost as palatable as milk—easier to digest than milk.

Prepared by Scott & Bowne, N. Y. All America.

BREVITIES.

The Board of Regents will meet to-day.

Genesey & Savage, plumbers and tinners.

J. F. Condon of Verdi was in town yesterday.

Paints and oils at Lange & Schmitt's.

Dick Stoddard spent the day with his folks yesterday.

Park's Tea clears the complexion. Sold by S. J. Hodgkinson.

J. D. Mallon of Virginia changed cars for the west last evening.

Miss Flo. Layton was an arrival from California yesterday morning.

Alvaro Evans left for his Churchill county ranch yesterday morning.

Garden tools, water pipe, plumbing and tinning at Lange & Schmitt's.

Mrs. H. M. Yerington was a westward-bound passenger last evening.

W. C. Watson of the Carson Keeley Institute spent the day here yesterday.

R. F. McCounaughy of the northern country is visiting Reno for a day or two.

Hon. Chas. Kaiser of Churchill county arrived on the late train last evening.

Plows, plow points, land slides, plow handles and beams at Lange & Schmitt's.

Mrs. M. A. Harsha, a sister of A. H. Barnes, took the train yesterday for Pacific Grove.

Col. Sutherland, the mining man, arrived from the south last evening and continued west.

Henry Levy shipped four cars of sheep and ten of cattle to San Francisco yesterday.

Eastern prices for watch, clock and jewelry repairing at A. G. Spingler's. All work warranted.

P. M. Dowler, Jr., of Hawthorne arrived on last night's V. & T. and registered at the Palace Hotel.

The Chicago Lady Quartette did not continue on to California, but returned to Ogden yesterday morning.

Try the Riverside Mills' Gold Medal flour. One trial will convince anyone that it is the best flour in the market.

Charlie Becker has a splendid line of pocket memorandums, the latest songs and a select stock of smoker's articles.

The Woman's Guild of Trinity Church will meet at 2 o'clock this Saturday afternoon with Mrs. Samuel Wheeler.

Charlie Lake has all kinds of writer's materials, such as tablets, note and letter paper, envelopes, pens, pencils, inks, maulage, etc.

E. C. Harris has just received a shipment of 1896 model bicycles. They are fine wheels and he will give purchasers the best of bargains.

William Laurensen of White Pine, who was recently admitted to the bar by the Supreme Court, arrived in Reno yesterday on his way to Ely.

Read Courtois & Co's new ad. to-day. They have a choice lot of wall paper and decorations, besides paints, oils, varnishes and small hardware.

The Regents and President Stabbs will inspect and review the full Cadet Corps on the parade grounds at the University this morning at 10:40.

Boalt & Bird keep a full line of vegetables and salt water fish, besides fancy and staple groceries. Read their new advertisement in to-day's issue.

For natural looking and comfortable fitting artificial teeth go to Hutchinson. His painless extracting is just the thing. Office Sunderland's building.

The engine that pulled the west-bound train out yesterday morning blew out a fine at Verdi and the train was delayed until a relief engine was sent from Reno.

Gus Moore has just received a lot of "Tribune" also the "Road King" and "Road Queen" bicycles which he is offering at special prices. They are all high grade wheels and are good bargains.

Three more weddings will take place in the near future in which three young Reno people have chosen their life partners from distant parts of the country. What's the matter with the home rule advocates?

CARSON MINT SHORTAGE.

THE TRIAL OF JOHN T. JONES—ELEVENTH DAY.

The Prosecution Closes, and the Defense Also Unexpectedly Closes.

(Correspondence of the JOURNAL.)

CARSON CITY, March 13, 1896. Chris Zabriskie, examined by Clarke—Have been living in San Francisco the last five years. Was here while my father was Melter and Refiner of the mint. He died June 5, 1894. His estate amounted to \$700 in coin, 250 shares creamery stock and I owed him \$600. I was in Candelaria for several years, engaged as Superintendent of the Candelaria store. Jones was manager under me and was also superintendent of a mine or two. He owed me \$350, which he paid in \$50 monthly installments. He also owed and paid others after he got into the mint. It was a matter of common knowledge that he made a large amount of money through fortunate speculation in mining stocks. He advised me in 1891 to buy all the Con. Virginia stock I could get hold of. My father in 1890-91 was able to attend to the duties of his position. He died very unexpectedly in June, after the annual clean-up. Jones told me at one time that he cleaned up over \$20,000 in stocks, and afterward \$20,000. I borrowed money from Jones in 1894 and paid him \$1,500 in all, the last part of it a year ago in January.

George McLaughlin—Since yesterday I examined several of the bars at the mint relative to the figures stamped upon them. Found the imperfection of stamp planer in some than in others—dull in some, but very sharp and prominent in others. Every impression widens the crack or defect in a stamp, and as pressman of the mint I have had to stop the press and put in a new die. As the crack in a stamp widens and deepens the defect becomes more prominent, and on that I base my opinion as to what bars were stamped first. The stamp on this bar shows the figure three half broken off. (Shown to the jury.) Should say that No. 134 was stamped first by the imperfections in 131 afterward; 110 is most prominent in its imperfections, and I should say it was stamped last; don't know about No. 110. Examined the bars at request of General Clarke without compensation. Have taken no interest in the prosecution against Jones and have made no expression against him.

At 11 A. M. General Clarke said the prosecution rests its case, having no more testimony to offer.

Woodburn wished to separate the charges of embezzlement and larceny in this case. Overruled. Then he said:

"Your Honor and gentlemen of the jury, the counsel for defendant do not deem it necessary to take up time in making an elaborate defense. The evidence introduced by the prosecution is good enough for us, and we will simply corroborate it as bringing out our case, and upon it ask a verdict of acquittal. To sum up the case in a few words, defendant is not guilty."

Ernest Harris—Have been in the mint more or less since June, 1880. Was deposit melter from last June till the middle of January, when the ingot melting department ceased operations. Knew Jones in 1889 as Assistant Melter and Refiner. He frequently came in during the day, and sometimes not for a day or two. Never saw him in the refinery after hours alone. Coinage ceased in May, 1893. There were about forty moulds in the deposit melting room, and Pickler and I used them. This mould was on top of the pile, being evidently the last one used. It fitted one of the spurious melt bars, and Detective Gallaher said it was a singular evidence.

Wm. Pickler was deposit melter at first under Harris, acting in January, 1895, also in February. When he was discharged I was sent for, and finally suspended for remarks I made to Clerk Elrod. Harris told me I wouldn't be let out but I was on the 13th of January last. I never complained, merely thinking they didn't like me, and didn't care anyway. The mint process failed on account of zinc and other base in the bullion.

Charles Thompson—Well acquainted with the mint from August 8, 1881 to September 1, 1892, as deposit melter. Frank Oliver and W. A. Rulison were helpers. In the clean-up of June 20 we melted 6,000 ounces in two melts. Worked till past 6 p. m. cleaning up. The 6,000 ounces was a melt from the Potosi mine. Nothing else was melted but slams.

Phil Doyle—Examined the moulds and bars at the mint with others last summer. Fitted the spurious in it into its moulds. There was ten bars and a third. The large bars were all stamped with the large figure 4 and the smaller one with a smaller one. Have moulded mill retorts at the V. & T. R. R. foundry for the last twenty years.

Frank Oliver's testimony was principally corroborative.

Mr. Spurgeon—Was employed in the mint about 12 years, principally as helper and silver dissolver. The tags that come up with the bullion are for the benefit and guidance of the Melter and Refiner. They were not generally taken care of after recording and got scattered. In the four years I know Jones in the mint I never saw him there after hours. He never had as good an opportunity to steal as most of us—not near as good. He was

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

BREVITIES.

most of the time in his office.

O. H. Galusha—Examined the moulds and bars with Doyle and others. Fitted some of the bars into the moulds.

Ed. Patterson—Constable—When Pickler's bullion shortage was discovered I went with John Ellis, Coffin, Galusha and Ulrick with a search warrant and dug up the stuff in Pickler's barn, which was in the yard of his residence. It was crude bullion and there was 10½ pounds of it. Pickler's was 10½ pounds of it. Pickler's was 10½ pounds of it. Pickler's was 10½ pounds of it.

We put it in a bucket and carried it away.

P. B. Ellis—Mint Assayer—Testified to assaying the stuff in the mint. This is it in this sack.

Justice Hawthorne—The Pickler bullion was brought to my office and afterward taken away by District Attorney Jones on behalf of the Government and deposited in the mint.

J. W. Adams, Superintendent of the Mint, was not present when the bullion was brought in. Jones told me he brought it.

Woodburn read a list of assays by Ellis of that bullion and it went 15 fine in gold, 34½ base and the rest silver. It is worth about \$136.

Woodburn said this closed the testimony for the defense, and the arguments of counsel will get in to-morrow.

ALT. DOTEN.

WEATHER BULLETIN.

Destruction of Forests Cause Aridity. (Copyrighted by Prof. W. T. Foster.)

St. Joseph, Mo., March 13.—My last bulletin gave forecasts of the storm waves to cross the continent from the 18th to the 22d. The next will reach the Pacific coast about the 23d, cross the west of the Rockies country by the close of the 24th, the Great Central valleys 25th to 27th, and the Eastern States the 28th.

This disturbance will be of very considerable force, particularly in the Eastern States, will be preceded by very high temperatures and followed by a cold wave, the latter being most severe in the Eastern States.

The warm wave will cross the west of Rockies country about March 23d, Great Central valleys 25th, and the Eastern States the 27th. A cold wave will cross the west of Rockies country about March 26th, Great Central valleys the 28th, and the Eastern States the 30th.

Several local storms may be expected east of the Mississippi not far from the 27th, and heavy local rains of limited extent will fall in the Southern States about that time. Rather dry in most parts of the Northern States.

REMEDIES FOR DROUGHTS AND FLOODS.

There may have not been a great American desert, but there certainly will be unless the practices are reversed. The forests of the Rocky mountains are being destroyed, principally by carelessness in permitting forest fires. When the destruction of these forests is complete the mountain streams will very materially decrease their flow, the streams west of the Missouri will cease to water the great plains, an intermittent will become a perpetual desert preventing the flows, which carry the moisture for the Great Lakes, Upper Mississippi and the Ohio valleys, from receiving their supplies from the Gulf of Mexico and the result must be an increase of aridity from the Rockies to the Alleghenies. Three countries—Mexico, the United States and Canada—are vitally interested in preserving the forests of the Rockies. The hand of man destroyed the forests of Asia and that cradle of the human race is now little better than a burning desert. These old rich countries, Persia, Afghanistan, Northern China, are covered by the Gobi desert because the forests were destroyed. The Euphrates valley, where the great Babylon ruled, is a waste of sands, and all this can be traced to no other cause than the destruction of the forests, because there have been no other changes and it is well known that when forests covered that country all the lands were fertile and there were located the granaries of the world.

The northern pine forests are also being destroyed, and if this is continued the best portion of the United States and Canada must become more and more afflicted with aridity. As sure as Palmyra of old was overwhelmed by the sands after the forests were destroyed so sure will the Ohio and Upper Mississippi valleys succumb to a similar fate if the destructive hand of man is not stayed.

These forests are being destroyed to satisfy greed as the seal fisheries of Alaska are being destroyed, and these forest lands have the means to hire able advocates among our scientific writers who, for pay, assure the public that forests have no influence on rainfall and thus a free press is converted into a hired oppressor.

Best of All

To cleanse the system in a gentle and truly beneficial manner when the springtime comes, use the true and perfect remedy, Syrup of Figs. One bottle will answer for all the family and costs only 50 cents; the large size \$1. Buy the genuine. Manufactured by the California Fig Syrup Company only and for sale by all druggists.

A note from G. R. Bliss says he passed the physical examination, having no ailment whatever, and he is satisfied that he did not fail in the mental examination, though the result will not be known until the papers are passed upon at West Point.

J. G. McCall and son of Oakland; R. Ritchie, Floriston; C. N. Howorth and family, Iowa; P. S. Donnell, Winemuccoo; C. B. Bogue, Chicago, and Jno. J. Whitaker, Grass Valley, were among the arrivals at the Hotel Reno yesterday.

Bar silver is 68½ cents per ounce, which is the highest price it has reached since its coinage was suspended in 1893. Senator Teller is reported as saying some time ago that it would go to 85 cents before May. If the people feel so disposed they can send it up to \$1.20 next November, and wheat, wool, beef and other products will go up with it.

About ten inches of snow fell at Wells, near the head of the Humboldt, during the late storm. As Wells is in the valley, no doubt the snow fall was much heavier in the mountains. As the headwaters of the Humboldt are in the mountains near Wells the snowfall in that vicinity is of the greatest importance to the settlers on the lower Humboldt as abundance of the snow at the head of the river means plenty of water at Lovelocks.

The record for changing names was broken at Richmond, Indiana, by Olive Smith. At 3 o'clock she went into court and obtained a divorce from Francis M. Trader, assuming her maiden name. She repaired to the clerk's office, procured a license to marry Joseph N. Tyler, and before the ink was dry on either the divorce or the license, the Justice of the Peace was pronouncing the ceremony that made her Mrs. Tyler. She changed her name three times in three minutes.

FINE WORKMANSHIP.

E. O. Harris, text to the JOURNAL office, has just finished some work on a bicycle sent from Carson, also one from Lovelocks, and it is safe to assert that no better job could have been done on the coast. In one job the frame in two or three places was broken entirely in two and Mr. Harris had to join the broken ends of the tubing and at the same time keep the frame its original size. He succeeded in doing a splendid job and it is almost impossible to find where the joints were made. The second job was to lengthen and straighten the frame of a wheel which had been badly bent and twisted. Nearly every piece of the tubing was out of gear, but it was straightened out cut off and joined so perfectly that after being cranked it looked like a new frame. Mr. Harris makes a specialty of this kind of work and it is foolish to send wheels away for repairs when the work can be done so much cheaper at home.

Four Big Successes.

Having the needed merits to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale: Dr. King's New Discovery, for Consumption, Coughs and Colds, each bottle guaranteed—Electric Bitters, the great remedy for Liver, Stomach and Kidneys, Buckler's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them, and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at S. J. Hodgkinson's drug store.

Justice Court.

Judge Linn was occupied yesterday in hearing the arguments in the case of the State vs. the bondsmen of Ben Pierce. The case was submitted and a decision will probably be rendered about the first of the week.

A. P. A.

On account of special business before the Council at the next meeting, Saturday, March 14th, all members are requested to be present.

By order of the Council. m13td

The partnership heretofore existing between Ritter and Richardson has been dissolved by mutual consent, Mr. Richardson retiring from the business, See notice.

Rooms Wanted

Those having rooms to let for use of teachers during Institute Week—April 5th to 11th inclusive—are requested to notify the Secretary of the Committee on Accommodation of Teachers at once. If notice is given in person it should be given at the Principal's office High School building, between the hours of 1 and 2 p. m. any day next week prior to Thursday, March 12, 1896. Notice should state the number that can be accommodated and the rate per week, with or without board.

F. H. NORCROSS, MARY W. EMERY, JOHN EDWARDS BRAY, Secretary. Committee on Accommodation. Reno, March 7, 1896. w1

For over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It is distributed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. "Sold by all druggists throughout the world." Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Tired Women

Need to have the action of the kidneys stimulated and the system toned up. Parks' Sure Cure is the best remedy to accomplish this. Many a woman finds that she is tired out when she ought not to be tired at all. She fears that her system is broken down and she is a hopeless invalid when a few doses of Parks' Sure Cure would make her look at life from a different point of view. Don't delay. Every bottle is guaranteed. Sold by S. J. Hodgkinson.

For the Girl's Study Hall.

An entertainment will be given at the University Saturday evening for the benefit of the Girl's Study Hall. The admission will be so small that everyone will be able to attend.
